

# Colloquium of the Collaborative Research Centre 973

Joint CRC & DCPS Colloquium

summer term 2017

Location: Kleiner Hörsaal der Pflanzenphysiologie; Königin-Luise-Straße 12-16; 14195 Berlin

**05.05.2017, Friday**

**Lorenz Adrian**

*Helmholtz Centre for Environmental Research*

Microbial respiration with halogenated compounds

**02.06.2017, Friday**

**Ainhoa Martinez-Medina**

*German Centre for Integrative Biodiversity Research*

tba

**09.06.2017, Friday**

**Christian Schmitz-Linneweber**

*Humboldt University of Berlin - Molecular Genetics Group*

Global and specialized players in plant organellar RNA processing

**07.07.2017, Friday**

**Marcel Quint**

*Martin-Luther-Universität Halle-Wittenberg*

Thermomorphogenesis signaling: Translation of temperature stimuli into plant growth

**21.07.2017, Friday**

**Justin Goodrich**

*University of Edinburgh - Institute of Molecular Plant Sciences*

Poacher turned gamekeeper: New roles for transposases in host plant epigenetic machinery
