

Colloquium of the Collaborative Research Centre 973

Joint CRC & DCPS Colloquium

winter term 2017 / 2018

Location: Kleiner Hörsaal der Pflanzenphysiologie; Königin-Luise-Straße 12-16; 14195 Berlin

24.11.2017, Friday

Mark Banfield

John Innes Centre, Norwich, UK

Engineering a rice intracellular immune receptor for extended pathogen effector recognition

01.12.2017, Friday

Luis Miguel Chevin

Centre d'Écologie Fonctionnelle et Évolutive (CEFE), Montpellier, France

Phenotypic plasticity and adaptation to novel environments

08.12.2017, Friday

Hillel Fromm

Tel Aviv University, Tel Aviv, Israel

How plant roots sense and track water

19.01.2018, Friday

Claude Becker

Gregor Mendel Institute of Molecular Plant Biology, Vienna, Austria

Reconfiguring the epigenome by bypassing epigenetic resetting in the germ line

16.02.2018, Friday

Daniel Wilson

University of Hamburg

Coping with stress - as a bacterial ribosome
